As Licensee for the above over the air broadcast television station, I am firmly opposed to further weakening the already way to liberal obscenity standards for broadcasting. The public airwaves are a serious responsibility for all of us who are engaged in broadcasting. Our children need to be protected from having to listen to any form of vulgar language. They should also be protected from any and all forms of nudity and sexual expression.

Instead, the obscenity standards should be strengthened; and made also to apply to the internet.

As a responsible broadcaster, I pledge to uphold these types of standards on KRHP-LD TV, and any other broadcast facility I am associated with.

Robert H. Pettitt

Licensee
